! [remote rejected] master -> master (pre-receive hook declined)
error: failed to push some refs to 'https://git.heroku.com/week5-project.git'
PS C:\Users\adana\Desktop\project>
```

The Heroku cloud service kept rejecting my push request to master branch due to its usage of an old python version, which is clearly not my fault since they're supposed to be accepting newer edition of python not just 3.7

Name	GPA	Age	Department	Province	Gender
Abdullah	2.8	21	econometrics	adana	male
Kaan	1.5	21	econometrics	adana	male
Talha	1.65	21	economics	hatay	male
Rabia	2.5	22	economics	adana	female

---

Nevertheless, My API is working perfectly fine.
